## EDUCATION

### Bachelor of Science, Information Technology

Expected May 2027

University of Central Florida · Orlando, FL

Relevant Coursework: Computer Network Concepts, Security in Computing, Database Management Systems, Fundamentals of Information Technology

## EXPERIENCE

### IT Support Specialist

2023 – Present

Craze Nails Salon · Lake Mary, FL

- Installed, configured, and maintained point-of-sale (POS), scheduling, and inventory management software systems, reducing downtime and ensuring consistent system availability.
- Diagnosed and resolved hardware, software, and network issues across multiple workstations, maintaining rapid mean-time-to-resolution for technical incidents.
- Managed and secured LAN infrastructure including Wi-Fi access points and routers, ensuring 99%+ uptime for internet connectivity and payment processing systems.

## PROJECTS

### ArenaOps

React, Node.js, PostgreSQL, REST API

- Developed a full-stack esports tournament management platform with automated bracket generation, match scheduling, and a real-time admin dashboard.
- Designed and implemented a RESTful API backend using Node.js connected to a PostgreSQL database for persistent data storage.

### CampusLab SIEM

Python, Log Analysis, Security Monitoring, Cybersecurity

- Built a Security Information and Event Management (SIEM) tool in Python to parse and analyze system logs for anomalous activity and potential security threats.
- Implemented alerting logic to flag suspicious events, demonstrating knowledge of security monitoring workflows and incident detection principles.

### Craze Nails Spa

React, TypeScript, Tailwind CSS, Cloudflare Workers, Hono, REST APIs, Supabase, PostgreSQL

- Built a full-stack booking and management platform for my employer, including the frontend, backend API, database design, authentication, and deployment.
- Designed the PostgreSQL data model with row-level security and database constraints to prevent double bookings per technician.

### Aromamor

React, Tailwind CSS, Component Architecture

- Built a production-style e-commerce website for a candle brand featuring a reusable component library, product catalog, and clean UX design patterns.

## TECHNICAL SKILLS

**Networking:** TCP/IP, DNS, DHCP, LAN/WAN

**Frontend:** JavaScript (ES6+), TypeScript, React, Next.js, Tailwind CSS, Bootstrap, HTML5, CSS3

**Backend:** Python, Java, Node.js, REST APIs

**Databases:** MySQL, PostgreSQL, MongoDB

**Tools & Platforms:** Git, GitHub, VS Code, Windows 10/11, macOS, Linux, Microsoft Office Suite, Google Workspace

## CERTIFICATIONS

### CompTIA IT Fundamentals+ (ITF+)

Apr 2025

TestOut Verification ID: 6-1C6-VPVCKB

### CompTIA A+

Expected Q2 2026

### CompTIA Security+

Expected Q3 2026
